There are sample papers on the Mathematic Competition website: <http://www.amt.edu.au/wuamc.html>

Some sample papers will be sent home with interested students. Students are encouraged to utilize the problem solving techniques they have practised at school during their regular mathematics lessons, and apply them to the Maths Competition examples. If students have any difficulties with particular sample questions, they can discuss these with their teachers or any of the Grade 5/6 staff.

Kind Regards,
