
THE PATCH PRIMARY SCHOOL

Medication**Rationale:**

- Teachers and schools are often asked by parents to administer medication for their children while at school. It is important that such requests are managed in a manner that is appropriate, ensures the safety of students, and fulfils the duty of care of staff.

Aims:

- To ensure the medications are administered appropriately to students in our care.

Implementation:

- Children who are unwell should not attend school.
- The office manager has agreed to be the staff member responsible for administering prescribed medications to children.
- All parent requests for the office manager to administer prescribed medications to their child must be in writing on the form provided and must be supported by specific written instruction from the medical practitioner or pharmacist's including the name of the student, dosage and time to be administered (original medications bottle or container should provide this information).
- Non-prescribed medication can only be administered with the written permission of a parent or guardian or, in the case of unexpected illness, verbal permission is acceptable.
- All student medications must be in the original containers, must be labelled, must have the quantity of tablets confirmed and documented, and must be stored in either the locked office first aid cabinet or office refrigerator, whichever is most appropriate.
- Consistent with our Asthma policy, students who provide the office with written parent permission supported by approval of the principal may carry an asthma inhaler with them.
- Classroom teachers will be informed by the office of prescribed medications for students in their charge, and classroom teachers will release students at prescribed times so that they may visit the school office and receive their medications.
- All completed Medication Request Forms and details relating to students, their prescribed medication, dosage quantities and times of administering will be kept and recorded in the office.
- Students involved in school camps or excursions will be discreetly administered prescribed medications by the 'Teacher in Charge'.
- Parents/carers of students that may require injections are required to meet with the principal to discuss the matter.

Evaluation:

- This policy was originally formed, and will be reviewed in consultation with all members of the wider community (all staff, parents, students, and interested members of the community) as part of the school's five - year review cycle.
