Welcome to our Term 3 newsletter for the ***Strengthening Parent Support Program***.

We have three purposes for this program:

- 1) to provide parent peer support groups for parents/carers of children age 0-18 with a disability or developmental delay (with or without a formal diagnosis)
- 2) to provide individual support for parents and carers, which can be answering questions or giving advice over the phone, email or in person (we have a parent resource library which you can borrow from)
- 3) to provide information sessions for community groups or organisations about SPSP and supporting carers and/or children with a disability

We have a new group in Chadstone, and we have recently even started online groups for when you are unable to get to a group in person. Join us!

All group information is listed conveniently for you on one of the pages below.

Please feel free to give us a call or email at any time.

Hope to see you at a group soon, or to help you with some information or advice!

Kind regards,
Grace Miano, Strengthening Parent Support Program Coordinator

Paws for Thought: There will be a drop in group starting on Thursdays run by me, Billie the Therapy Dog! Paws for Thought aims to engage young people who may not be ready for one-on-one appointments but need a soft introduction to headspace Knox. We all know I am a great tool for engaging young people and I also make them feel calm and happy. It will allow opportunity for young people to socialize with each other and chat informally about what they may be on their minds with some supporting headspace humans. Young people can drop in at any point and don't need to let me know they are coming. Any questions chat to Sharon or Chenai, any pats or belly scratches come see me directly. Stronger Outcomes for Families - Invitation to contribute

The Department of Social Services (DSS) would like to invite you to contribute to the future of family and children services. Under the Families and Children Activity, DSS invests approximately \$217 million annually in the following programs:

- Communities for Children Facilitating Partners
- Family and Relationship Services
- Children and Parenting Support
- Intensive Family Support Service
- Home Interaction Program for Parents and Youngsters

The majority of grant agreements for these programs expire on 30 June 2020. It is therefore timely for us to discuss how we can continue to work together to ensure our programs continue to achieve positive outcomes for families and children into the future.

To facilitate this process, a 'Stronger Outcomes for Families' discussion paper has been released on the DSS Engage website. **DSS is seeking feedback on the discussion paper from service providers, academics, state and territory governments and families and children.**

DSS wants to be clear that the ideas proposed in the discussion paper are ideas for testing only. The discussion paper does not represent DSS' final policy position. This process is the beginning of our engagement. We anticipate continuing discussions over the coming years.

This discussion paper is available to view and respond to from 5 July 2018 to 15 August 2018 on the DSS Engage website:

<https://engage.dss.gov.au/stronger-outcomes-for-families/>
